

sistema de correr de corte tradicional simples e duplo

simple or double traditional cut sliding system

système coulissant de coupe traditionnelle simple ou double

Características do Sistema

System features

Caractéristiques du système

Sistema certificado, cujo desenvolvimento se baseia na otimização da relação qualidade/preço. A JM atinge a sua magnitude quando aplicada na versão de caixilharia dupla. O corte térmico existente na JM Dupla é uma mais valia significativa ao nível do isolamento térmico e acústico.

Certified system, the development of which is based on the optimization of the quality/price relationship. JM reaches its magnitude when applied to double pane framing. The thermal break present in Double JM is a considerable enhancement regarding thermal and acoustic break.

Système certifié dont le développement est basé sur l'optimisation du rapport qualité/prix. La JM atteint toute sa magnitude lorsqu'il est appliqué au modèle de châssis double. La JM Double est équipée de rupture de pont thermique qui est une avantage significatif au niveau de l'isolation thermique et acoustique.

Apresentação: Presentation Présentation	Reta Straight Droite	
Dimensões: Dimensions Dimension	Aros Fixos: Fixed frames Cadres dormants	2-rail: 75mm Duplo Double Double: 175mm
